Research Problem

The focus of this case study will be on how to sort out conflicting information.

Person of Interest

George Childs Pearson of Wellingborough, Northamptonshire, England

Born about 1857 and died 1918.

Research Questions

- ***When was George Childs Pearson born, who did he marry, when did he die and who were his parents?***
- ***When we determine his parents, can the correct Pearson pedigree be determined?***
- ***Ancestry and Family Tree have pedigrees that are probably incorrect. Can we as a collaborative group determine the correct direct Pearson line?***
